Tired of all the phony scams that claim they can hack any email? Today I'm here to share with you my toolkit that is used to hack into any email account.

Sure, many sites claim that if you download their program and enter the account information in, that they will provide a password. Many people have failed to realize that there is no magic program that can hack an account at the flip of a switch.

That's why today I'm going to share this kit with you. It comes with a keylogger, spoofer, binder, and pumper. All these tools are essential for everyday hackers and I have even included a read-me just for the noobies :).

I hope everyone enjoys this as much as I have enjoyed sharing it with you

on the other hand, the attitude of government Bekasi mediating

dispute concerns the establishment of places of worship in Bekasi

From this base

Bekasi government should long ago prepared and

Meanwhile, the National Education Day on

May 2, 2012 was also used by the left to

encourage the problems in the world of education. From some

permasalahan appearing on Higher Education Bill above, is predicted to be very easy to be momentum the strategic interest groups (opposition national) to further marginalize the government through the issue of an impartial education of the people. Some of the (Observer study) considers that the draft Law Higher Education Act (Bill PT), will only make education in Indonesia is increasingly reduced, if the government and Parliament enacted the Higher Education, tuition fees will be higher so it is possible will be many students who can not solve education because of lack of funds. Indication efforts to politicize issues seen from the Higher Education Bill dissemination actions of the activists left the alliance network elements base among students to encourage action denial PT bill proposed in different regions Kemendikbud. The problem of education is one of the strategic issues for the leftist alliance that has always made political commodity, so special issue of Higher Education Bill will continue widened by the leftist alliance.

Bank Century corruption issue has long been a

cornering the SBY-Boediono government policy. Polemic case  
Bank Century obviously directed to the circle of power at that time,  
although it has yet to be proven legally.

Various issues or rumors deliberately disseminated to the public

Activities that are most prominent in the group Other Flows

Second Week in May 2012 are: Circumference rallies Ganja Nusantara (LGN) in the roundabout in Central Jakarta. Action resumed convoy with a demonstration by a group on behalf of Circumference Ganja Nusantara (LGN) in Central Jakarta roundabout above is one of the activities in order to further action submit claims in essence asking the government to revise the Narcotics Act, especially the chapter on marijuana, marijuana legalization done, urging the government urged Indonesia that cannabis users are drawn to law rehabilitated. The idea of "legalizing marijuana in Indonesia reap the pros and cons of various circles. However the pros and cons of any such Indonesia might not legalize marijuana, as well as the been done by the Dutch since the second condition states different. Our laws say marijuana is harmful to society and we are not a free country, so that we can compare the conditions with other countries such as the Netherlands are already from the first to legalize marijuana. Because the law in the Netherlands is more clearly so there is no problem to legalize marijuana because it can still be controlled. Unlike the Netherlands, the law Indonesia says that marijuana is harmful to society. Negative impacts of the cannabis plant is very dangerous for people of Indonesia because it has been misused for the benefit of its use. Back aware that the idea of "legalizing marijuana in Indonesia has come from a group called the Circle

Ganja Nusantara (LGN). The group assessed, marijuana has more  
Among many other benefits than harm for the purposes of  
medical and industrial.

During this time, Law No. 3/2009

Not only in Indonesia, the legality of cannabis

United States though, only 16 of the 42 states that have  
legalize marijuana, and even then limited to medical purposes. Action

The existence of the Ring Ganja Nusantara (LGN) in action

the possibility of protests carried out by Rim Ganja

HI Jakarta Pusat generally highlights education in  
Indonesia and as a form of criticism of the government

are considered not capable of managing the national education system

(Education) to the fullest. 's Day

National Education (Hardiknas) dated May 2, 2012, a number of

mass elements have taken advantage of the momentum to

raised to the surface the issue of education in the country.

They demanded the government to open up access to education

quality widely to every citizen of Indonesia

(WNI) as mandated by the constitution. One way, the government

have to allocate 20 percent of the state budget purely for education.

In the opening of the '45 Constitution, the government is in charge of "intellectual

life of the nation ". task is then defined in Article 31,

the government should be unqualified right of every citizen to

to education.

So the government has a role

as the party most responsible for education.

Both elements of the action above the view that the education system

national (Education) is still not siding with all citizens

Indonesia. The reality on the ground there are still many students do not

to school because of financial problems. Though the government's job

opened the broadest access to all citizens and true also of quality education is the gateway establishment of the quality of human resources (HR) quality. However, as a country with huge human resource potential Indonesia has not been able to optimize the education sector.

Qualified human resources can only be generated through integrated policy, planned and directed in the education sector. When education is successful, the development of a country will be much progress. However, the practice of commercialization, neo-liberalism, neo-capitalism and discrimination in education is still a lot going on in Indonesia, starting from the early childhood education (ECD) to higher education. At the level of Early childhood, educational opportunities are limited. Government target of at least 75 percent from 30.2 million in early childhood can enjoy access to early childhood education. In fact, there are approximately 15 million Indonesian children aged zero to six years old who have not been served educational facilities.

At the high school level, the Action Committee Education for the People (LIME) and FPR highlight aspects of the high cost of education and extortion in school. Other points criticized is the application of standard schools by the International (RSBI) considered deflect orientation of education as a commodity service. Enforcement of RSBI / SBI also hinders child birth education. Education becomes expensive, and discriminates on the public to enjoy

education.

While the higher education sector, which is highlighted increasingly unclear partisanship society increasingly not clear. Mechanism of Higher Education bill which shows indication the government wants to get out of hand in the affairs of education.

One is freedom campus regulating mechanism funding of education makes education more expensive. PT bill the government wants to impose more BHP Law confirms revival that has been canceled

The Constitutional Court (MK) on March 31, 2010. Moreover, the government also requires the concept of internationalization of education erode national identity and values.

Therefore, the momentum Hardiknas 2012 attempted exploited and used as legality to urge the government of SBY-Boediono order RSBI delete, revise, and reject the notion Education Law commercialization of education as well as more in favor of the interests of national education in the spirit of nationality.

pat decisions taken and the steps required on the operational level and taktis.anyak Â± 50 Boga has led people rallied on February 14, 2012 at 16:20 PM in Roundabout Hotel Indonesia Jl. MH. Thamrin in Central Jakarta in order to address the demands of the bottom line:

Â Merdeka Utara Central Jakarta in order to address the core demands:. Bil most policy tepat.19 January 2012 at 13:00 Cikarang EJIP Region Western District. Â Indonesian Christians who intends to make Bekasi as Lighthouse Christian development has sparked tensions between religious communities in the Bekasi area. Decreased morale and awareness between religious tolerance in Indonesia has led the public to easily incited by SARA nuanced issue. Lack of firmness of government in determining the rules of religious life to be one that was supposed to be a national issue in the review and the need for restructuring related to some provisions such as the LCS. Issues permits construction of the church has sparked a reaction from minority groups (Christians) in the Bekasi government to demand justice. This incident is certainly an impact on the growing tensions between the Islamist group Hard Line (Igaras) with Christians in Bekasi.bangsa. a in Jakarta. The student movement has always been the driving force changes in Indonesian history has become a priority for interest groups to run political agenda. Legality of students rated as pure movement aspirations (not tercampuri by political interests), post-reform has begun to shift. It is based on the number of operators

who take advantage of the political mass base of students to carry out its political interests such as by forming a network and control network elements nodes students.

Â Democrats have successfully conditioned by the political opposition to government as a vehicle to bring down public confidence in the government of SBY-Boediono at the same time making efforts internally splits the Democratic Party. From this fact shows that the conditioning efforts carried out by the national opposition in the mass base of students began to run again, so predictable actions of a group of students next will increase in line with increasing competition (tension) in the level of political elites. sa labor lately in Jakarta, Bekasi and Tangerang (Greater Jakarta) is triggered by a dispute over the amount of minimum wage increases and provincial / district / city (UMP / MSE). For the workers in Tangerang strongly support the steps taken by the Governor of Banten in their policy on revisions umpah minimum, but the entrepreneurs (Apindo) feel overwhelmed and increasingly difficult position. Different views will impact on the harmonious relationships between local government and Apindo, while the labor groups will continue to fight the decision taken by the Governor of Banten as part of an effort to increase the welfare of the workers. Political motives of regional leaders in the face of Election 2012 also be one factor amongst teething problems with the local government in determining Apindo MSE / UMS 2012. Following up on this, today emerged insistence on Manpower to quickly create a new format in determining wages. Because for this format in the form of wages imposed yielded only the workers and employers arguing and eventually tails strike. Without reform of the current system, labor disputes and crippling industrial action and public facilities will continue to recur. It is feared will be utilized for the benefit of a particular political party, for industrial conflict that dragged only create legal uncertainty amid efforts to boost growth to reduce poverty and create jobs-wide mass action luasnya.ian Forum Communications Padang Island Rescue Society (FKMP3) Kep. Meranti Riau who survived for 57 days in front of the main gate of the House of Representatives and is currently last in the Ministry of Forestry Jl. Lake Winnepesaukee Jakpus generally still relevant course of action demanding the termination of operations of PT. RAPP in Pulau Padang Kep. Meranti Riau. In the normal actions taken earlier, some of the elements of the above actions have been staged in the courtyard of the mouth sewing DPR / MPR. They demanded the government revoke the license of industrial timber plantations (HTI) on an area of 41 205 hectares of the island based on the Decree of the Minister of Forestry. 327/2009. The strong demand for the mass element assumes no central government and corporate transparency, so those affected are people of Padang Island. As is known, on February 23, 2011 Meranti Islands Regency ago with some representatives of the people of Padang Island, have sat together and form a unified team. A team of experts was tasked to assess the feasibility of Padang Island with peat soils if timber operations. However, the results of the meeting that took place in hospitals Selatpanjang was never realized to the public. Even they do not know at all the results than studies conducted by it. For the community, if the results of the study proved that PT Riau Andalan Pulp & Paper (RAPP) worth of operation and it was delivered to the people, they would never refuse. However, the opposite happened. Integrated teams were formed even changed direction and was not impressed Padang Island people cared. So the Padang Island community remains committed to its demands that ask the Minister of Forestry issued an operational termination PT. RAPP in Pulau Padang Riau Islands Meranti and soon formed a national committee agrarian conflict resolution as well as the government revoked the Minister of Forestry Decree 327 of 2009 on the HTI (Industrial Forest Plantation).

Â agrarian reform (land reform) to provide political pressure on the government of SBY-Boediono. Land reform program is one of the agenda of the alliance of the left, so the above problems will possibly continue to be widened and the central issue to cause a public uprising against the government. The peasant farmers who are members of the National Farmers Union (STN) from Jambi province threatened to continue to survive as long as the Government and the Parliament is inconsistent to implement the Basic Agrarian Law (BAL) in 1960 for the sake of Article 33 of the 1945 Constitution because they thought the content of the BAL 1960 is Right those that must be met as citizens. As is known, the demonstration of peasants who joined the Farmers Union Nani (STN) derived from the 3 provinces namely Riau, Jambi and Lampung has been ongoing since the date of December 12, 2011. Due to lack of response and a clear decision, they persist in the front of the DPR / MPR RI to set up tents and sewing mouth action. g surrendered the initials M. Last time I released - <http://pastebin.com/3RNmH53Q> (CIA Dox and Hacked Accounts) against Ongoing measures for Online Censorship! And within 24 Hrs of info release they just discontinued the email ids and CCs of those 5 CIA Field Agents without making any public comment!

This time I am unfolding the Dox of 7 top notch FBI Agents who were involved in bringing down members of LuLzSec, namely -

[Ryan Ackroyd a.k.a. Kayla]

[Jake Davis a.k.a. Topiary, of London]

[Darren Martyn a.k.a. pwnsauce]

[Donncha O'Cearrbhail a.k.a. palladium, of Ireland]

[Jeremy Hammond a.k.a. Anarchaos, of Chicago]

Also, I have doxed-in the internal server ports of FBI intranet connection!

Looks like FBI forgot about their own security while playing Hide-n-Seek with LuLzsec;D
